Disaster Planning for Dog Owners

Ready Your Dog

- Make sure your dog is wearing ID tags with your most up-to-date contact information.
- Microchip your dog as a more permanent form of identification—in case collars or tags come off.
- Train your dog to feel comfortable going into a crate with regular in-crate sessions with treats.
- Always bring pets indoors at the first sign or warning of a storm or disaster. Pets can become disoriented and wander away from home in a crisis.

Prepare Your Home

- Ideally, you should evacuate with your pet, but if you are unable to do so, a rescue alert sticker placed near your front door will let first responders know that you have a dog inside your home.
- If sheltering in place, consider these things when choosing your safe room:
  » Be aware of hazards such as windows, flying debris, etc.
  » Utility rooms, bathrooms and unfinished basements may be easier to clean if your pet has an accident.
  » Having a supply of fresh water is particularly important. In areas that may lose electricity, fill up bathtubs and sinks ahead of time to ensure that you have access to water during a power outage or other crises.
  » In the event of flooding, go to the highest location in your home, or a room that has access to counters or high shelves where your animals can take shelter.

Locate a Temporary Caregiver
(if your dog cannot stay with you after you evacuate)

- Contact your veterinarian for a list of preferred boarding kennels and facilities.
- Ask your local animal shelter if they provide emergency shelter or foster care for pets.
- Identify hotels or motels outside of your immediate area that accept pets.
- Ask friends and relatives outside your immediate area if they would be willing to take in your dog.

Create an Emergency Kit

- Obtain a crate that comfortably fits your dog, write your dog’s name and your contact information on a piece of duct tape and stick it on the outside of the crate in case you become separated from your dog.
- Make a portable emergency kit that includes the following:
  » Medical records
  » Water (7 days’ worth of bottled)
  » Water bowls
  » Pet food (3-7 days’ worth of canned food with pop tops or dry food)
  » Pet’s medications
  » Pet first aid kit
  » Dish soap and disinfectant
  » Disposable garbage bags for clean-up
  » Extra collar, harness and leash
  » Flashlight
  » Blanket
  » Recent photos of your dog (hard copy in case your phone dies)
  » Toys

Consider putting the kit inside the crate and storing near an exit.
