

OWNER SURRENDER INFORMATION PACKET

OWNERS **MUST** HAVE AN APPOINTMENT
TO SURRENDER THEIR PET.

Completing this request does not guarantee placement. TCAS is an open intake shelter for stray, sick and injured animals and will take in owner surrendered pets as space allows. The shelter may also be able to assist you with non-shelter placement and resources and we utilize this form to determine the best path for each individual animal.

Please submit back to the shelter via mail, drop-off, or email:

- Owner Surrender Request
 - Photos of the animal(s)
 - Animal Behavior Profile

We know that sometimes it's just not possible to keep a pet. But before making the decision to surrender a pet, please consider all of your options.

BEFORE YOU SURRENDER...

Did you acquire your dog from a breeder?

- Have you contacted that person? If he or she is reputable, you would have signed a contract at the time you purchased, stipulating that the dog should be returned if you decide to no longer keep them. Please contact your breeder first before contacting Tulare County Animal Services.

Did you acquire your Dog from a Rescue Organization?

- If so, have you contacted that rescue organization? If they are reputable, you would have signed a contract at the time you adopted your dog, stipulating that the dog must be returned to them if you decide to no longer keep him or her for any reason.

New baby in the family?

- How lucky for you that most dogs are fantastic family pets! If you can take care of your new little human baby, you can take care of a dog. Some of our educational materials are listed below to help you ease the transition:

<https://www.asPCA.org/pet-care/dog-care/dogs-and-babies>

<http://www.akc.org/content/dog-training/articles/how-to-introduce-babies-and-dogs/>

Moving?

- There are plenty of apartments, townhouses, condos that accept pets. Many places will even allow you to spread pet deposit payments over multiple months. Please see our list of pet friendly places, in this packet.

Are there behavioral issues?

- Is your dog having trouble getting along with other animals in the household or are there other behavioral issues that have led to the decision to give up your dog? If so, let us help you. Here is a list of trainers in the area.

Many problems can be improved by having your pet spayed or neutered. We can help! Contact our shelter to learn about our spay and neuter program. If you didn't socialize your dog as a puppy, it's never too late to enroll him in obedience school.

Trying to rehome your pet? Have you tried all of the following?

POST YOUR PET ON Rehome by Adopt-a-Pet.com and Petco Love, they are easy and free websites that focus on rehoming pets to keep pets out of shelters.

USE YOUR NETWORK - Reach out to friends, family members, co-workers and neighbors to see if anyone might be interested in your pet and ask them to pass it on to their friends, relatives and co-workers. Using your network can often result in finding the right home for your pet, keeping your pet out of the shelter, and going directly to another home, which is the best thing for your pet.

USE SOCIAL MEDIA AND OTHER VENUES TO SPREAD THE WORD - Post a picture with a description of your pet on Facebook, local bulletin boards, etc. Ask veterinarians or pet-related businesses if you can post flyers at their facilities.

HAVE YOU TRIED A RESCUE? - Rescues are no-kill facilities that take in pets and adopt them out. Please see the list of rescues below. We ask that you try calling rescues before surrendering your pet to TCAS.

List of Rescues

We encourage you to call some of the following groups to see if they may have room for your pet. This is a list of just a few of the rescues in the area. If you would like to look up more, please type "dog rescues" into google. **Don't forget to check rescues that are not in the area and google rescues who are not on this list!** There are many rescues in the state of California. <https://www.petfinder.com/> is an excellent resource for rescues.

OWNER REQUESTED EUTHANASIA

At this time, TCAS is unable to provide owner-requested euthanasia for public animals. However, there are many wonderful and compassionate veterinarians throughout the County that offer in-office and in-home euthanasia for pet owners who believe that their animal is suffering or too aggressive to re-home.

IF YOU ARE STILL IN NEED OF SURRENDERING...

When all other options have been unsuccessful, and you are still in need of surrendering your pet to us. The next step is to schedule an appointment to surrender your pet.

What you can expect:

In order for us to find the best home possible for your pet. Surrender appointments are available and scheduled Monday-Friday, 10:00am-4:00pm. You must first fill out an Owner Surrender Application. Once your application is processed, you will receive an email and an appointment will be scheduled. Please understand that Tulare County Animal Services is an open intake shelter. This means we must take in all stray dogs. We only have so many kennels so we can only take owner surrenders when we have space. This is why we will only take owner surrenders by appointment.

Surrendering ownership of your pet:

When you surrender your pet, you are giving up all legal ownership rights to the pet and legal ownership and responsibilities are transferred to TCAS. Tulare County Animal Services takes the responsibility of your pet's well-being very seriously. We have a team of compassionate and dedicated staff and volunteers who will provide loving care to your surrendered pet. Your pet will be compassionately cared for during his/her stay with us, during which time your pet will be evaluated medically (if needed) and behaviorally to identify the pet's adaptability and concerns that could restrict or preclude the pet from finding a new home. Keep in mind that the shelter environment is stressful, and your pet may react quite differently than they have in a home environment.

Our goal is to get our dogs adopted or sent out to rescues where they will be adopted. We keep dogs here, as long as they are happy and healthy. If your pet isn't adopted from the shelter they could be sent to a no kill facility, called a rescue. ***We need owners to know, however, that we cannot guarantee a positive outcome for your pet and there is a chance that they will be euthanized.***

Tulare County Animal Services - Owner Surrender Notice

Tulare County Animal Services is an open intake shelter. That means we must take in all stray and injured animals that come into our care. We have very limited space; therefore, we only take in owner surrenders by appointment. Tulare County Animal Services is NOT a no kill shelter, although we have a very low euthanasia rate. You will receive a packet with resources for other options. We recommend you exhaust your options before coming to Tulare County Animal Services to surrender your pet.

Please provide a copy of Driver's License/ID.
